

**The Battle of Round Hill.....**

**A guerrilla approach to invasive species control**

**Christine Mundy**

**Ingleby Barwick Residents Local Action Group**

**Giant hogweed  
is a beautiful,  
structural  
plant**

**But it is also invasive and very dangerous.**

**After several years of trying to get something done about the giant hogweed, by 2012 we decided enough was enough.**

It was time to do something about it

**And these people turned up and started making suggestions**

# First up...FLAMETHROWERS

**Next... TRACTORS AND FLAILS**

Then CHEMICALS...

**Not bad...**

**But there were still pockets of resistance in hard to reach places**

So we called in the heavies.

And set them to work...

The sheep cant get enough of the hogweed!

**The results speak for  
Themselves....**

**Its been a great experience  
For us and we have learned  
Lots about sheep!**

**And knitting**

# How to Create a self-sustainable Community Farm

**A community farm for Ingleby Barwick.....?**
