 5. **Active Travel and Modal Shift** - Mark Fishpool, Middlesbrough Environment City, Janet Easley and Tony Gordon, RCBC.
 6. **Table discussions - 45 mins**
 7. **Next Steps and Summing Up – Edward Kunonga**
- 12.30 Lunch

How air quality and pollution have changed over time.

The National Context: Plans and Strategies

- National Clean Air Strategy (Department for the Environment Farming and Rural Affairs):
 - Identifies national measures to reduce emissions from residential housing, farming and industry.
 - The strategy also contributes to the governments action on Clean Growth and seeks ways to support investment in technologies and solutions that tackle emissions.
- The Road to Zero Strategy (Department for Transport):
 - Identifies national measures to reduce emissions from vehicles already on our roads and a drive the uptake of the cleanest new vehicles.

Table Discussions

- What are organisations/ currently undertaking to improve air quality?
- What more would you like to do to improve air quality?
- What are the barriers to your organisation in progressing initiatives that improve air quality?
