

We've all fallen in love with nature again now it needs our help!

We may not have a vaccine for the climate and nature crisis, *but* there is still time to come together to support nature so it can support us. Nature recovery can help our economic, and social recovery too.

If you care about the future for our communities, join us on-line for **'What Can Nature Do for Us?'**

Imagine everyone; communities, school children, business, political leaders all pulling together to create a natural future. Restored nature on our doorsteps buzzing with wildlife alongside clean, green technologies – what's not to like?

Come and join the buzz with our inspiring speakers including:

- Keynote Speaker Emma Marsh Director of [RSPB England](#)
- Paul Booth OBE [Environmental Justice Commissioner](#) & Chair of [Tees Valley Local Enterprise Partnership](#)
- Beatrix Schlarb-Ridley Head of Innovation at the [British Antarctic Survey](#)
- Laura Sillars Director, Dean [MIMA School of Art & Design](#)
- Dr Mya-Rose Founder and President of [Black2Nature](#)
- Frans Calje CEO [PD Ports](#)
- Chris Davies Partnership Manager [National Nature Recovery Network](#)

Book your place at this year's Tees Nature Conference [here](#).

YOU'VE GOT THIS.
